630-543-2820 phone
630-543-1463 fax

Iten Industries, Inc. (Iten)

EU Directive (REACH)

Based on information given to us by our raw material suppliers and Iten's formulations: To the best of our knowledge, we believe the chemicals in the current EU REACH directive (for all 173 substances per the latest ECHA list. (dated 10 February 2017), with the SVHC's) are not intentionally a part of any formulations that affect our material and not intentionally added during manufacture.

EU Directive (ROHS)

Based on information given to us by our raw material suppliers and Iten's formulations: To the best of our knowledge, we believe the current identified substances EU ROHS directive 2011/65/EC also known as RoHS2 or RoHS Recast (formerly 2002/95/EC) which include Lead, Mercury, Cadmium, Hexavalent, Chromium, Polybrominated biphenyl's (PBBs), or Polybrominated diphenyl ethers (PBDEs) are not intentionally a part of any formulations that affect our material and not intentionally added during manufacture.

Iten has an ongoing process to ensure that our raw material vendors communicate to us any changes in their formulations.

This statement is in respect to all products manufactured at Iten in their original form.

Any ingredients in Iten materials which could be considered hazardous are listed in the SDS, which can also be found on our web site. (www.itenindustries.com)
